Dear Presidents,
Dear Colleagues,

We would like to inform you that the **Building Engineering Forum** WEB page has been launched – www.bef2021.uceb.eu

This event is organized by the *Union of Civil Engineers in Bulgaria* and the *Chamber of Engineers in the Investment design, region Sofia* and will be held under the auspices of Ministry of Regional Development and Public Works of Bulgaria.

European Council of Civil Engineers (ECCE) and European Council of Engineers Chambers (ECEC) are partners of the Conference. The members of these organizations are invited to take part in the event.

So far, we continue to organize the event both in-person and as a virtual conference. In both cases, we will streamline the Conference through On-line Platform. It will be possible some of the Lecturers to be present in Sofia, some to speak through the On-line Platform. Because of the complicated COVID situation now, we will finally announce the form of the event on October 1st.

The Conference will be streamlined in live to the foreign participants **in English language**.

We take pleasure in inviting all Members of ECCE and ECEC to take part in the **International Conference on Earthquake Engineering**.

The participation in the Conference is completely free for all participants.

The Registration is already open on the WEB page.

Please post on the website of your organization an INVITATION to your members for online participation in the International Conference on Earthquake Engineering.

We shall ensure a high-quality streaming to your country.

Wishing you health and successful work,

Sincerely yours,

For Organizing Committee
